Radio Sailing Rules Working Party
Report on 2020 Tasks

The members of this working party for 2020 are
John Ball (CAN)            Glenn Dawson (AUS)
Qu Chun (CHN)              Richard Thompson (GBR)
Gordon Davies (IRL)        Henry Thorpe (GBR)

2020 has been a quiet year for the working party. The numerous changes to the RRS Parts 1 to 7 required the editing of several Appendix E rules; all edits were agreed by RRC and are included in the published RRS.

The formal transfer (as submission 204-18) to World Sailing of the original IRSA\(^1\) Case Book was finally completed in March 2020. It has been updated to comply with the RRS 2021-2024 and is expected to be circulated to RRC for approval this year. It is retitled as the World Sailing Call Book for Radio Sailing.

In Spring 2020 the RRC WP accepted the offer from IRSA to transfer their rules for umpired radio sailing (known as IRSA Addendum Q) to World Sailing. These rules are still under development so RRC WP decided that, initially, the document should be edited into a Test Rule. The following note has been added to the 2021 Appendix E Preamble.

> A Test Rule for Umpired Radio Sailing is available at the World Sailing website.

The test rule is currently being proof read. Then it will be circulated to RRC for approval and for publication.

Richard Thompson
WP Chairman
