1. Opening of the Meeting

(a) Welcome from the President

The President welcomed everyone to the meeting and he stressed the importance of developing the sport of sailing. The MNAs expect decision making and the minutes should reflect this and allow the MNAs and sailors to easily understand the Board’s decisions.

The President outlined his activities since being appointed President, including a visit to Germany and to St Petersburg, Russia as a guest of the Russian Yachting Association for the Russian annual awards and where he met with the newly elected officers.

He had recently completed a successful visit to Lausanne where he met the IOC President Thomas Bach and key IOC personnel. 28 sports are competing for 4 possible additional medals at Tokyo 2020 and it was noted that sailing had an above average athlete quota (the average being around 200). The IOC President advised that the second tranche of the Olympic monies were now due and discussions took place about the importance of bringing in youth to the sport, widening the appeal of sailing to a broader audience and having proactive communications.
Decision
Following discussion, including a report of the meetings with the IOC President, the Board will focus on applying for showcase events for Tokyo 2020 and not pursue an 11th medal.

(b) 2017 - 2020 Strategy
The Board received a presentation from the President.

Decision
A questionnaire to identify strategic issues would be drafted using the President's presentation and sent out to the Council Groups. It was essential that Council Members consult with the MNAs in their Group and consolidate their feedback. The Board would review this feedback at their strategic workshop in February 2017 and then 5 priorities would be chosen. The strategy would then be presented at the Mid-Year Meeting of Council in May.

4. **Events**

(a) Para World Sailing strategy

The Para World Sailing strategy was outlined.

**Decision**

The Board will make a submission to bring the Para World Sailing Committee Terms of Reference in-line with other WS Committees.
The Board recommends that the recently selected equipment by the Para World Sailing Committee (Hanse 303 & Weta Trimaran) to be considered as development equipment rather than selected equipment for a Paralympic Games. These 2 new pieces of equipment will be added to the existing 3 events at the Para World Sailing Championships in 2017.

As from 1 January 2018 all sailors competing in any Para World Sailing events need to be affiliated with World Sailing. The Para World Sailing Committee will be asked to put in a Submission for Council to consider at the Mid-Year Meeting.

(b) Supply of Olympic Equipment Advice

The Board discussed the various concerns raised prior to the Annual Conference regarding competition law/antitrust issues and a legal opinion that had been sought from a specialist law firm. In particular, two submissions to Council 023-16 and 024-16 raised these points.

Decision

The CEO and Director or Legal Affairs are to seek further opinion from the advisors as to a final proposed solution to be discussed at the February Board meeting. The proposal should consider strengthening of evaluation processes, a review of the Olympic Classes Contract, the implementation of a tracking and quality control system with manufacturers and the potential implementation of a sanction system when manufacturers do not comply with standards.

(c) 2020 Events and Equipment Process

Following the recent meeting that the President had with the IOC President, it is now the Boards opinion that there are very limited chances for an 11th medal (4 medals across 28 sports). Furthermore, an extra medal would have to come from within the existing athlete quota and given the need for gender equality, an 11th medal would need to be a women’s event.

Decision

The Board will propose 10 events and will not apply to the IOC for an 11th medal as it would risk decreasing the number of nations competing at the Games. Quotas will be based on the 10 events only and should support maintaining or increasing universality and gender equality. The Board will make a recommendation to the Events Committee in order that they can produce a paper for Council.

Submissions from all disciplines for format as well as showcase event/s, should be made by 10 January. Council will then be asked for an electronic vote on the showcase events to be proposed to the IOC.

There is no need to rush other format changes. Classes can present proposals on format to the Events Committee in due course. The Board respect the 49er/Nacra 17 format decision.

Work on improving sports presentation is the most important priority.
Another priority will be to work on performance training for closing the gap for smaller nations, participating in Olympic classes.

A recommendation will be made to all the Olympic Classes to allow free pumping over appropriate wind limit for Olympic Events only.

World Sailing to retain the 3 approved qualification pathways (Combined Worlds, Class Worlds and Continental Qualifiers, subject to IOC confirmation. 2019/2020 continental qualification events need to be decided in 2017.
Given the ongoing discussions by Events, the Board members, who are current members of the Events Committee, will take no further part in any deliberations on format or quotas.

(d) Sailing World Cup

The CEO updated on the SWC decisions to date. He reported that the Sailing World Cup Final contract for 2017 and 2018 Finals had not been signed yet but they had been awarded in principle.

A new commercial/broadcast model was being trialled in the SWC Final Melbourne and work was being undertaken on a new onshore event concept (sports presentation).

The qualification system for each SWC event still needs review, but it was noted that there was a good sign-up to the current SWC series.

The Board also discussed the governance and strategy of SWC.

**Decision**

*The Board requests a paper on the SWC and will review all aspects of the Sailing World Cup in February.*

*The Board approved finalisation of the Santander contract for 2017.*
